TO WHOMSOEVER IT MAY CONCERN

This is to certify that we M/s. billets Elektro Werke Pvt Ltd. have been powering our 10 nos. critical machines thru TSi-VRp since more than 6 years now and are extremely satisfied with TSi-VRp technology.

We have power up 4nos. of VMC Haas VF-2, 1nos. of VMC Haas VF4, 3nos. of Jyoti lathe CNC and 2nos. of Chmer EDM Sparking machine.

We appreciate this modern technology which could provide real time protection not only from voltage fluctuation but can also during sags, swells and transients. Which is need for today's modern machines using lot of power electronics.

We have also not faced any maintenance related issues during this period, since the units are static in construction, its almost maintenance free.

We wish them good luck.

Precision in Every Dimension
